Semantic Infrastructure 2.0 Roadmap Wiki

Review and comment on the Semantic Infrastructure 2.0 Roadmap

- **Review** the current PDF version of the Semantic Infrastructure 2.0 Roadmap or the current working version on the wiki.
- If you have an account on the wiki, you are invited to use the Add Comment link at the bottom of the wiki page on which you want to make a comment, and write your comments there.
- If you would like a wiki account, please write to the Editor; provide your name, organization, email and phone number.
- If you prefer, provide your **comments** on the Semantic Infrastructure 2.0 Roadmap Community Input Form and send the file to the Editor. Your comments will be posted in your behalf on the relevant wiki page.
- For **additional information**, consult the following CBIIT Semantic Infrastructure 2.0 Roadmap Documents:
  - Semantic Infrastructure 2.0 Capabilities and Services Profile (main page included in the SI Roadmap)
  - Standards and Initiatives Related to Semantic Infrastructure 2.0
- Refer also to caGrid 2.0 and Semantic Infrastructure 2.0 - Reference Frameworks for Development.

Disposition of comments to date
View the comments on each page of the Semantic Infrastructure 2.0 Roadmap to review comments submitted beginning in January and the replies. These comments are removed when they are resolved and the issue is no longer current. Visit the list of attachments to this page to see the spreadsheets with community input, answers, and dispositions posted through December, 2010. Issues that are being resolved in successive drafts may be designated "in process." For an open issue, a link is provided to a discussion page in the CBIIT Semantic Infrastructure 2.0 Roadmap Comments Resolution Pages.
